APPLICATION SERIAL NUMBER

DOES NOT COMPLY WITH THE SEQUENCE RULES. See reasons below.

Pages 3-57 of the instant specification contain DNA and amino acid sequences without benefit of SEQ ID NOs. A complete search of the pending claims requires that the instant application be compliant with the sequence rules prior to examination.

Sample comments should be specific:

The instant application does not comply with the sequence rules. On page 5, line 3, and in Claim 1, an amino acid sequence is disclosed and claimed, respectively, without benefit of a SEQ ID NO. A search of Claims 1-8 require the instant application to be compliant with the sequence rules.
